

Special Education Millage

Learn More About the Special Education Millage Renewal & Restoration

Why is the renewal & restoration important?

The renewal would impact all students. The millage renewal would ensure continued funding for special education programs used by more than 3,500 students. It also fills the funding gap left by insufficient federal and state funding that otherwise would be drawn from the general fund, reducing resources for all Livingston students.

100% of funds go to local districts and public school academies.
